

National Lines

Unlike cables, the abbreviations have different meanings for lines because some of them are abbreviations of the names of the lines. Here too, all abbreviations start with the letter "N" (normal version).

Identification of applicable standard

VDE standard
Based on VDE standard

Insulating material

Non-cross-linked, halogen free polymer
Cross-linked, halogen free polymer
PVC
Rubber materials

Designation

Installation line, flat
Sheathed line

Sheathing materials

Non-cross-linked, halogen free polymer
Cross-linked, halogen free polymer

Protective conductor identification

With green and yellow wire
Without green and yellow wire

Number of wires and nominal cross-section

Number of main wires
Nominal cross-section of individual wires
